"Art, Courage and Creativity" WORKSHOP PHOTOS & TESTIMONIALS

"I am writing you with regard to Karen Leeds's art workshop. I took her class and found it to be insightful. I believe it to be an important bridge for both the beginning artist as well as someone attempting to reconnect with them selves as an artist. More importantly, Karen lets you learn or just have fun. I recommend it highly"

"I will never forget driving away from my first class as I had a feeling that now I could do anything. I had indeed created art, 2 wonderful pieces that gave me pleasure not only to look at, but that gave me confidence... I truly believe that it is a way of working through 'stuck' areas of ones life in a different way than talking about them. It's an exercise of emotion, passion, focus, creativity, an exercise of expressing life. Thank you for pointing me in yet another direction of my quest for learning, pruning, becoming better inside."

"Hi Karen:

Thank you so much for the picture of me with my creation from your class. Everyone I show it to loves it, including me!!!

It is true that I always wanted to be an artist. It was not nurtured however, and I went into the medical field. The inner urge though is there. I really enjoy the free-flowing and unstructured feeling the oil pastels give me. I feel like they will be giving me the means to express my soul. Finally, I have found the medium I was looking for! I am so grateful to have attended your class. You are an awesome teacher and you brought much love and connectivity to the group. I can't wait to get started on my new venture into the world of art.
